It is said that the Pen Americans Lavy had more or less influence in causing a recorded changed. It is said that the Pan Americans have had more or less influence in causing a reconsideration of certain articles, also that the administration has objected to some of the proposed schedules on that account becretary Blaine is supposed to have had a scheme with the Pan Americans which would allow duty free products of South and Control American, and in return United Stakes reports were to be admitted fact to countries represented in the Pan American coursers. Sugar is one of the products and hides and leaffest unother remoderations being greatly interested in the latter product. The class of one of the most prominent. Pan American delegates are expressed as follows.

The dealers in manufactured leather and the canning industries are also making a fight on the schedules, and representatives from the North western states are objecting strongly to the small cut in sugar and the eduction made in tobacco. The ways and means committee, by giving out a portion of the schedules, have brought down protests and objections from all sections. The republican members are more worried than ever in their effort to suit at sec ions and yet rotain—a revenue as well as a protective tariff.

SAN Direce, March 29.—A copy of the prospectus of the so-called Los Angeles San D ego & Yuma Sait Lake City It is claimed the company has exclusive right to eleven and one hair miles of San Diego water front and all railroads antering San Diego must pay it tribute It also claims three and one half miles of railroad already built. The pro-pectus has been circulated and stock offered lor sale in Sait Lake and New York. The first claim is sutterly false. San Diego never granted an exclusive franchise of any part of its water front to any one. W D Charleson, president of the company, has laid three and one-half miles of the individual control which is on private prop-ert; He is probably trying to speculate on this.

A Quiet Sunday—Reports of Disturbances I 121 y Calored

Kanas City March 22.—Distatches from several points a Indian I rr to vare to the effect that there has been avera quiet Sunday in the Cherekees rip the troops inding few settlers to clost it appears from reports of the commanding officers in the strip and from reliable nespaper men, that the situation there has been exagerated by correspondents who were cally in the field and by inhabitants of border towns which would be benefited by a rush of set there since the effect that agree many boomers were cattened to the effect that agree many boomers were cattened of these very towns in diverse town lot boomers rather than bons for a settlers. Exagerated reports of the harshare set troops in dealing with citiers also originated from these towns the object being to arouse I preliation against the troops and sympaths with the settlers. One of the latter range cantons was in last night a news dispatches, which chronic ed. he destruction by United States troops of Cherokee City rom the newspaper report one would beled to believe 'Cherokee City was a trit ing border town of at least 400 or 50 inhabitant' in fact as appears from Laptan Woodana's afficial report the town was composed of that zour cabins whose owners step ped over the Chrone cline to avoid detection by the troops and a consequent forfe ture of homestend rights.

GOOD EXAMPLES.

If women yourd set a good example it would soon retorm the world, as the men are continually following after the women. If a woman could talk out of the two corners of her mouth at the same time there would be a good deal said on both sides. The Drs Darrin want just such advocates. No one tongue or corner of the mouth can tell of the wonderful cures they are making daily at their offices. The few following testimonials substantiate their wonderful skill.

GRANT'S PASS is located on the Oregon & California Railread, 300 nules south of Portland and in the heart of the famous Rogue River Valley—the Santa Ciara of Oregon

GRANT'S PASS contained but a singledwelling) rier to the extension of the Oregon & California Rainrold in 1883. Present population exceeds 2500.

GRANT'S PASS creeted 212 buildings, GRANT'S PASS creeted 212 buildings, including a '33,000 trick opera house, during the last seven months of 1889.

GRANT'S PASS property quadrupled in value between May and December, 1889, and bods fair to do the same during the first six months of 1893.

GRANT'S PASS is the county seat of

GRANT'S PASS is the county seat of Josephne county, one of the extreme southern countres of Oreg m, and is known throughout the state as the home of the fix and wines. GRANT'S PASS has ten general mer-

chandise stores, doing an aggregate cash business of over \$3000 per day, and plenty room for more. GRANT'S PASS is the sole distributing

point for 1800 square miles of the most prolific territory on the Pacific Coast, em-bracing the whole of Josephine county. bracing the whose of scoopman county.

GRANT'S PASS has shipped \$2,320,000 worth of gold dust since 1883, being the output of a few partially developed placer mines in Josephine county.

GRANT'S PASS has one sash and door factory, with a paid up capital of \$125,000, affording employment to over 200 men all the year round. GRANT'S PASS has twenty saw mills

in operation in the Sugar Pine Forests, within a radius of 23 miles, and ships more lumber and manufactured woodwork than any town in Orogon, except Portland.

GRANT'S PASS is situated on the north bank of the beautiful Rogue River, which, in addition to its charming scenic features, affords a 50,000-horsepower for manufacturing purposes.

GRANTIS PASS is

GRANT'S PASS is surrounded by the forest wealth of Michigan, the precious metals of Montana, the marble quarries of Vermont, and the semi-tropic fruit fields of Southern Culifornia of Southern California.

GRANT'S PASS, by reason of its wondefully diversified resources, affords an inviting field for the speculator, the manufacturer, the miner, the dairyman, the fruit grower, the lumberman, the stockraiser, and last, but not least, the inactive healthseeker.

GRANT'S PASS is going to be the great midland city of Oregon and California.

GRANT'S PASS has a daily stage line and mail service to Crescent City, California, and a telephone line to the same point, S7 miles distant, is now being built. point, 57 miles distant, is now being built. GRANTS PASS has a national bank with a paid up capital of \$50,000, and its deposits for the first two weeks of its existence, from January 1 to January 13, 1899, fooled up over \$50,000.

Lower Than the Lowest.

The Canadian Pacific are now selling first-class limited tickets through to Chicago for \$57, second \$34. Office, No. 6 Washington street. GRANT'S PASS will be the inland fermious of the Grant's Pass and Coast Railroad, thus affording a short and in-expensive ocean outlet for its products. GRANT'S PASS has made greater progress, and enhisted more capital than any town in Oregon of equal size during the past year.

GRANT'S PASS has a modern water and electric light system in course of con-struction, and work upon an improved sewerage system will be commenced early in the spring.

GRANT'S PASS has a \$20,000 brick hotel under way, and another to cost \$25,000 is to be erected before the close of

GRANT'S PASS is not a paper town based upon a bubble, but a solid commer-cial city, and there is nothing of an "un-tamed feline nature in its composition. GRANT'S PASS has already earned

more money for investors in proportion to the amount invested than any town in Oregon or Washington. GRANT'S PASS will soon be reached by the great Union Pacific Railway system on its westward march from Boise City to San Francisco via the Douahue road, the two roads now being separated by a distance of less than 600 miles.

GRANT'S PASS will soon be the greatest pork-packing center on the North Pacific Coast. Arrangements are now being made by Portland parties for the establishment lishment of a packery with a daily capacmy of 300 hoge. GRANT'S PASS shipped during the

GRANT'S Plass shipped during the year 1859, 110 carloads of choice water-melons, 73 carloads of canteloupes, 32 carloads of sweet potatocs. 87 carloads of peaches, 330 carloads of apples, 11 carloads of nectarines, 19 carloads of grapes, 18,000 pounds of almond nuts, 32,000 pounds of prunes, 48 carloads of hops, 36 carloads of hops, 36 carloads of brome cern, 113 carloads of gold-bearing quartz, worth \$65 per ton, and 1878 carloads of lumber and manufactured woodwork. Shipments extended north to Seattle and south to Los Angoles.

AN AMERICAN TUG BEIZED.

Ambiguity of Con dian Customs Laws as to the Straits of Fuez. VICTORIA, March 23.—The American tug fogul has been libeled for an alleged infraction of the Canadian customs laws, and a bond of \$300 has been deposited as navment of the mane to be levied should she satter these waters. A protest accompanied the bonds, and the question will be referred to the customs authorities at Ottawa for de-cision. It appears that the trouble arcse over towaga of the ship Daniel Barnes from small local tug Lottie was engaged to low the Bernes cut to what the master of the tug assumed to be the three-mile limit. Here the tow-line was taken by the Mogul and the vessel was towed to Nanaimo. The Mogul entered that port with dearrance papers from Port Townsend. Inspector Young of the customs department here, maintains that this proceeding on the part of the tug Mogul is not in accordance with the letter of the act. He assumed that the three-mile limit should not apply to the wasters of the straits, but that the boundary should be in imaginary line drawn from the forty-minth parallel of latitude through the middle of the waters of San Juan and those of the British possessions. Inspector Young says this subject has been under discussionly the leads of the Customs departments for some time, and considerable correspondence has already been carried on pertaining to the matter.

This week we shall display one of the most supurb assortments of choicest and newest designs from the loom of the best manufacturers of Ribbons.

It embraces over 3000 pieces, and is one of the largest and most complete lines ever brought to this city

It includes all the latest designs and colorings, and all widths, and we are able to match any available shade, either in Dress Goods or Millinery They consist of the GROS GRAINS, SATIN EDGE, PLAIDS, FRINGED EDGE, STRIPES, FIGURED, and the NEW TWOTONED SATIN, widths from No 2 to 22

We request the careful inspection of this line of Ribbon, both in prices and qualities which we think you will admit is the grandest display of Ribbons ever made in this city.

Due notice will be given of our Grand Millinery Opening.

NOTICE TO OUR OUT OF TOWN CUSTOMERS.

THE CLERICAL PARTY IN GERMANY

The clerical party in the new German parliament, with a strength of H2 members holds the whip hand of the government, it it chooses to use its opportunity. The origin of this party or at least its first atti origin of this party or at least its first atti-tude of aggressiveness dates back to 1870 when Plue the Ninth fulminated the doctrine of papal infallibility. Bismarck has always been in favor of rigid laws in defense of the rights of the state against the arrogant and presumptious opposition of the priest-hood and in January 1872 in the Prueslan preliment replained to the complant of Preparliament replying to the complaint of Dr Windhorst then as now the leader of the Cathole clerical party. Lis marck stated that the formation of marck stated that the formation of a Catholic party the so called center was, in effect 'preparing to move on the state Hedenounced the German Catholic clergy as in league with the Polish mobiles in opposition to the German clement, that it was only in Germany that the Catholic clergy maintained an anti-national character, holding as they did that the interests of the chuich lay nearer their hearts than did those of the lay nearer their hearts than did those of the nation In Murch 18"3 Bismarck in his nation in A iron 18 3 Dismurck in his appear urging the passage, of the church laws said that the papacy had always been a political power, that the programme of the papul party had always included subordinating the temporal power to the clerical and he urged that it was the duty of the state to use all means at its command in defense of use all means at its command in defense o its authority and its rights He did not attempt to settle religious disputes." he did not think the fault was with the Catholic church but with that party within the church who sought to secure to themselves temporal power, and whose movements were so hos tile to the safety of the state that his duty compelled him to oppose it The passage of these church laws" of 1873 were followed these 'church laws' of 1873 were followed by an attempt, in July 1874, to assessinate Bismarck at Kussengen, his assailant confessing that the passage of those laws were the inspiration of his crime. In February 1876, the pope insued his equyclical letter declaring these 'church laws' invalid. Bismarck retorted by securing the passage of additional laws, in pursuance of which government pay was to be withheld from insubordinate priests, the re-

withheld from insubordinate priests, the re-ligious orders were to be abolished and the articles of the constitution reinting to the church to be changed. The ultramontane bishops refused to recognize these laws, and their example was followed by hundreds of priests and thousands of their flocks. These bishops were deposed, the clergy went un paid, and more than one thousand pulpits became vecant, and in many of the sch religious instruction censed. In the federal parliament nearly one-fourth of its mem bers belonged to the clerical party and voted as a unit against all the gov ernixent measures Bismarck could not serment measures Binnarck could not secure a majority without further concessions to the liberals, or by yielding to the demands of the clerical part; and so he was forced to gain his end by compromise So, in 1878, he opened negotiations with the present pape with the view of establishing a madus extend, securing the rights of the state in return for the pledge of a less rigorous administration of the laws of 1878. rigorous administration of the laws of 1873 Bismarck asked and obtained leave of par liament to modify the laws of 1873 in event of the church modifying its tone to a point which made reconcillation tolerable in 1882 the laws of 1873 were again modified on the proposition of Bismarck and Prus on the proposition of Bismarck and Prus sia's representation at the Vatican, which had ceased under Pius the Ninth, was renewed this year under Leo But Bismarck did not abolish the church laws of 1973, he only asked for the medification, saying, as he had said on their passage, that he had never opposed the religion of the Catholes but only their position of antagonism to the state and in May, 1973, he described his celling. and in May, 1879, he described his action as "laying down our weapons on the field of battle, but not surrendering them, for the time thay come when we shall need our This suti clerical campaign which ended

in Bi-march's cree with a compromise to which he was forced by the factious conduct of the national Hestale and his desire to seour repressive legislation against the social state is likely to be renewed by hisretirement for the clericals will hardly be content with less than the complete repeal of all the offen sive legislation of 1873 and 1873, and the re Tawal of this releases. newal of this religious war is sure to give Emperor William and his advisors no and of trouble. If the Emperor eats arow" by consenting to the repeal of the anti-clerical laws he will weaken himself greatly with the Benmarckien party and if he re-fuses to yield why then the clore discan worry him by making the passage of government measures impossible without their votes No wonder Bismarck wished to redire before this prospect of government obstruction and defeat. The same anti-clerical war that voxes Germany is now a hurning issue in both Italy and France with this important difference that in both the French and Italian legislatures the antisiericals are in clear majority and can work their will against the ultra montane Catholics The republican majority in France has enacted a new military France has enacted a new military law compelling ecclesiastical students and priests of military age to serve like their lay brothers, in the ranks and country priests are reported to have been deprived of their salaries for having opposed the covernment or republicance delegates. or republican on indicates at the late election Without repealing the concordat the party in power are both able and anxious to rul life it on slight pretext at every opportusity. The national Catholic party in France ity The national Catholic party in France has lost influence through several of its leaders being identified with Boulangism. In Italy the anti clerical party is also both able and anxious to take the hald scalp of able and anxious and hand it at its war girdle. able and analous to lake the usin scarp of the priesthood and hang it at its war girdle a mood that has been created by the reck less folly of the Vatuan in rescuting the pay ment of memorial honors to Bruno

The German explanation of the reasons for Bismarck's resignation only confirms the impression existing in America that he was practically driven out of aftice by the pre sumptuous interference of the young om peror with dutails of administration for which the chancellor was responsible and the distation by him of a line of policy which Bismarck could not approve. The difference over the Guelph fund which is the olvil list of the extinct kingdom of Hanover, claimed as private property by the Duke of Cumberland was only a symptom of the real This was that the emperor upon dealing directly with smarck s subordinates in the ministry instead of heaving bem to direct and control thom "o far as the policy of the emperor in donling with the Lathouses is concerned, it figures absolutely recessary to the formation Recons absolutely recessary to the formation of an imperial party is parasament. The government can do rothing without Catholic vote: The Laibo, is made the restoration of certain temporal revenues to the bishops a familiar of that amparet. This south bar votes and carroy is make the resoration of certain temporal revenues to the blahous a Gondition of their support. This must have been as their to Blamarok as to the emperor if he could have managed the affeir in his own way, he would probably have

come to an understanding with Dr Wind thorse in the matter of the Guesph fund as well as that of the episcopal revenues. But the thing he could not tolerate was imperial medding There is probably some founda tion for the story that Bismarck has de clined the empty honors offered him by the emperor This would be a rather natursi and dignified thing for him to consideration of the manner in which he was treated in the affair.

THE CHINESE QUESTION

The Chinese question is perennial and protean It will endure till the last Mongolian expires and it will probably take a new form every year The question of exclusion has been settled against the Chinese The ques-tion of expulsion has been settled in favor of the Chinese No more of them may come to this country but those who are here are under the protection of the laws and cannot be disturbed in the rights they have or in those they may legally ac quire Among these state right to hold property by leave or freehold. It is settled that a Chinaman cannot be disturbed in his property rights by municipal legislation. Then there are the multifarious sanitary questions. the wash house question in ban Francisco and the smell question in Portland These are not entirely settled but the courts have laid down one broad principle in relation to them he state laws or municipal ordi nances can ie made to apply to Ohmamen aloue All wash houses mix be prohibited in a certain locality but Chinese wish bon es alore may not be All foul smells may be declared a nuisance and their auth ors expelied or limited, but specific legisla tion agains. Chinese smells is invalid law must not discriminate among persons. This principle was laid down by the U S court in California in the famous wash house cases, and it has since controlled all decis ions of the courts in relation to these matters
This principle plannly forbids the passing

by any city of an ordinance removing the Chi ese from one locality to another, ox cluding them from or limiting them to any quarter of the city or excluding them from its precincts altogether. The San I rancisco Chinamen are quite right to trust to the courts for projection against the recent ordinance commanding them to remove to the The ordinance will fail to the ground as soon as it is tested in the courts. The city can't remove or limit the Chinese as Chinese. The only way to get rid of them is to buy their property and leases, and refuse them any more. A private person may discriminate as to whom he will sell or lease his property The state cannot compel him to do so, nor refuse to recognize and protect rights acquired by Chinese under contract with whitea. In all probability there will be no attempt to enforce the Chinese removal ordinance in San Francisco II there is, the Chinamon will simply take it into the courts, where it will be declared invalid be cause it discriminates among persons. It would be very stupid for Portland to imitate San Francisco by the adoption of a policy known in advance to be unsound, and by enacting a law known in advance to be invalid. The city has nothing to gain by setting up a straw ordinance for the courts an unlerstanding which will enable hoth to Enock down however it may be with fisheries and canneties to be exploited to individuals in it

There remains the question whother, if we cannot logistate against the Chinese as Chi prohibiting the existence within certain boundaries of fifthy and offensive habita-tions would hold water But it must apply to all fifthy and offensive habitations, not specifically to those occupied by Chinamen.
The law will not be permitted to assume
that because premises are occupied by Chinamen, they are offensive, into crable and a nui-ance The ordinance must be univerndiance. The ordinance must be universel, impartial and undiscriminating. It must include filthy and offensive habitations of other races and exclude the unoffensive habitations of clean Ohinamen. Such an orbitation with the result of the control dinance might have a wholesome influence on the health of the city, but it would not ac-complish the objects sought by those who are moving for the expulsion of the Chinese from the business quarter, and it would accompiled some objects they are not seeking. It might rid the business quarter of the lower grade. Chinainen, whose manner of living would expean them to the probabilion of nusances. But it would

Commander McCalla does not like newspaper than the support that the pen is wighter than the support that the pen is wighter than the support that the pen is wighter than the support than the support that the pen is wighter than the support than The average saloon of the lower order smells worse and is more dangerous to health than a Chinese lodging house A general ordinance against offensive places in the business quarter would drive many a dirty grog shop to the suburbs. We doubt whether this is any part of the plan of the anti-Chinese agitators. These are some of the practical difficulties in the way of the scheme of removing the Chinese by a smelling committee. The committee, lit is smelt without regard to race color or previous condition, as it must to make its decision valid, might smell out some of its friends and miss some of its enemies.

Mr Frank Pixley of the San Francisco Argonaut recalls a famous epigram of Stan ley Matthews, with his terse 'I don't care a blank for the financial systems of other countries" Mr Pixley is at the same time cl-verer and a more irresponsible person than the inte justice of the supreme court whose what do we care for abroad ' moved the country to mextinguishable laughter Matthews a provincialism was bucole and stupid and inspired unamiable contempt Picieys is piquant and enlertaining and moves to good natured nurth. The chartered libertine of Western journalism, who has done more for the innocent anusement of Pacific coast readers than any other wri er on its press has the privilege of saying extraordinary things The coast doesn't wri er on its press has the privilege or saying extraordinary things. The coast doesn't take Fixley seriously but it onjoys him im mensely and its proud of his captivating econtracties as a thinker and his daring paradoxes as a writer We should even ind it in our hearts to forgive him if he spoke

We begin to suspect by the way that Pixley is the author of the Stanford scheme for setting up a real estate loan alency in the treasury department, and lending the money of taxpayers to the farmers of the country at a nominal interest. It has always been a wonder that a plan so unbusinesshipe and unscient he should have emanated from man who has a prosperous and successful iness career behind him and whose men tal jowers show no active man of decline It now appears that the first authorite presentation of the scheme was through the column of the Argonart This suggests the no ton that Pixley conveved the main leatures of the plan to Stantord's mind by that process of unconscious suggestion which is so fundaments. Stantord's mind by that process of uncon-scious suggestion which is so fundiar to students of public science. He is not be aware of it himself but we are included to believe that the ideas are his own. They are more akin to Argonant c science and two only than to the principles and methols which have ruled Stanford sife

A generation has arisen that knows not Ropert C Schenck, but he was a very no table person in his time Curiously enough he is best remembered for two minor incidents in his career his authorship of a manual of the American game of poker for the information of his English friends when he

was minister in London and his recovery from a supposed fatal attack of Bright a dis-ease under the their novel milk treatment. General Schenck is really active and useful public career was before his appointment as innister to England. He did good service in the army, though he was without military the army, though he was witnest military the army, though he was without military training and was like General Logan stig metize I as a political general. He was one of the most useful and energetic leaders of the house of representatives during the reconstituction period possessing a rugged force of character which fitted him for the tamultuous conditions of that time. His public influence declined later, less by rea on of his failing health than on account of a change in conditions which left him out of sympathy with his surroundings. The news of his death will recall him sharply to the of his death will recall him sharply to the minds of man; who had almost forgotten his existence

The prompt conviction in the I lack conspiracy case to which the prominence of the persons concerned will attract general attention should executa wholesom, check upon n form of frand and n justice for which the laxity of the laws on the subject of divorce leaves little excuse. It is only too easy in most states of the boon to get rid of man tal relations without resorting to fraud The fraud resorted to in this case is pecu itarly repuisave, from the fact that a father end sons combined against a wife and mother to perpetrate it. The judge should do his work as promptly should do his work as promptly and effectively so the jury has done with the severest sentence permitted by the law it such case. It will be mild enough at best for the nature of the offense

There is a dea th of news from Br zil, but that which comes is not encouraging It is easier to that down a government than to build un a new one. The provisional government resting upon the army for its support is an object of suspicion, and the project for the convocation of a constituent assembly is regarded with distrust One seems to be in the hands of soldiers and the other in the hards of politicians, and neither commands public confidence. The thing that is needed in Brazil is a trained and intelligent public opinion. Without this a republican soverimentis a precurious and unstable allair

The Pan American delegates take natural except one to some features of the new tariff bill, which are in flat contradiction of the theory upon which their congress was as sambled. They were invited here to discuss the establishment of closer trade relations among American nations. This bill, with its new duty on hides, its exclusion of silver ore containing lead and its refusal to put sugar on the free list creates new diffi culties in the way of such establishment But McKinley couldn't legislate for the Western farmer and in the interest of for eign trade at the same time

It is to be hoped that there is truth in the statement sent out from Astoria that there is prospect of an accommodation between the salmon fishermen and the canneries The prosperity of the salmon industry this scason depends upon the establishment of their full capacity

If the record which the funniest of all Hoyt's farce comedies "A Tin Soldier has made is not broken to night then wilt the sudence which may witness its production at the Matequam G and be simply convolted with laughter over its many amusing situations. It has been seen in all the primipal cities of the country for the part two years and whenever produced has carried off the palm as the chief of funnakers. It will be produced by an exceptionnily elever company and abounding as it does with pretty gras, catchy music, clover dances and comicalities without stint, should wors a transcadous hit. A San Francisco exchange, speaking of its recent production in that elty says.

Hoyt's Tin Soldier still ranks high as a sue cassful fun maker, notwithstanding that it has been presented in this city on several different constituts. The Alcara has been liberally patron ized this week and the audiences have given year to their merripean and thoroughly enjoyed the first production at that house of Hoyt's popular farce-comedy. None of the clover people who were ident hed with former su ceasful presentations of "A Tin Soldier in this city are included in the cast but nevertheless the present co apany is full pasked to the comedy and stand the less of comparison. The play has been brightened with new incliedna songs and music, and the cutter performance is given with a vim and cinerial moss that itends a new ruster to the production.

Peop a seem to have awakened to the fact that there is but ont BBC Ne. No bumorist in it of highly speaking wor'd can for a moment, be compared with him. He has completely outstrapped his contemporanes and has a wider reading them any wit of our age. One for retinate bis weekly letters fall into the hands of half a million readers while his books have an enormous sale. Without the dightest attemt at being merconary, he is like the popular chord, and is well paid for if. Nor is his humor mere foolishness. Beneath it all there is a bright voin of good sense and excellent philosophy. It is wit is keen and full of surprises. In originality he stands atone while he displays a real gentium the subject of his humor, he seems to find sunshine and laughter in overything that crosses his mental vision. He never strains for effect and is nover "far fetched." Personally Nye is one of the kindlest of men. In his conduct he is a gentleman and never puts on airs. He never poses, but is most natureal in everything he does. In all his remarkable cureer he has never written a sentence that hurts and not one word for which he should blush. In his first writing on the Jaramie Boomarang he was of the West West, but of late he has shown a finences of direct that scintillates with great brill-inney.
